

The Journal of  
**Experimental Biology**

# The Journal of Experimental Biology

EDITED BY

J. GRAY and J. A. RAMSAY

ASSISTED BY

THE HON. SECRETARIES, SOCIETY FOR  
EXPERIMENTAL BIOLOGY

VOLUME XXXI

CAMBRIDGE  
AT THE UNIVERSITY PRESS

1954

U. OF L.  
LIBRARY

*Published for the Company of Biologists, Limited*

*Printed in Great Britain at the University Press, Cambridge  
(Brooke Crutchley University Printer)  
and published by the Cambridge University Press*

*London: Bentley House, N.W. 1*

*American Branch: New York*

*Agents for Canada, India, and Pakistan: Macmillan*

## CONTENTS

No. 1. MARCH 1954

	PAGE
H. BLASCHKO AND JEAN M. HIMMS. Enzymic oxidation of amines in decapods . . . . .	1
P. M. B. WALKER. The mitotic index and interphase processes . . . . .	8
R. E. BILLINGHAM AND ELIZABETH M. SPARROW. Studies on the nature of immunity to homologous grafted skin, with special reference to the use of pure epidermal grafts. (With Plates 1 and 2) . . . . .	16
R. A. WELLER AND F. V. GRAY. The passage of starch through the stomach of the sheep . . . . .	40
F. V. GRAY, A. F. PILGRIM AND R. A. WELLER. Functions of the omasum in the stomach of the sheep . . . . .	49
J. A. KITCHING. The effects of high hydrostatic pressures on a suctorian. (With Plates 3-5) . . . . .	56
J. A. KITCHING. The physiology of contractile vacuoles. IX. Effects of sudden changes in temperature on the contractile vacuole of a suctorian; with a discussion of the mechanism of contraction . . . . .	68
J. A. KITCHING. The physiology of contractile vacuoles. X. Effects of high hydrostatic pressure on the contractile vacuole of a suctorian . . . . .	76
E. J. BATHAM AND C. F. A. PANTIN. Slow contraction and its relation to spontaneous activity in the sea-anemone <i>Metridium senile</i> (L.) . . . . .	84
J. A. RAMSAY. Active transport of water by the Malpighian tubules of the stick insect, <i>Dixippus morosus</i> (Orthoptera, Phasmidae). . . . .	104
WALTER POOLE AND D. W. EWER. Studies on the myoneural physiology of Echindermata. I. The pharyngeal retractor muscle of <i>Cucumaria</i> . . . . .	114
W. BURKE. An organ for proprioception and vibration sense in <i>Carcinas maenas</i> . (With Plate 6) . . . . .	127
CHIEN-YUAN KAO AND ROBERT CHAMBERS. Internal hydrostatic pressure of the <i>Fundulus</i> egg. I. The activated egg . . . . .	139

No. 2. JUNE 1954

ANNE ROWLANDS. The influence of water and light and the pituitary upon the pigmentary system of the common toad ( <i>Bufo bufo bufo</i> ) . . . . .	151
KATHLEEN M. DOWNING. The influence of dissolved oxygen concentration on the toxicity of potassium cyanide to rainbow trout . . . . .	161
BARBARA H. DAINTON. The activity of slugs. I. The induction of activity by changing temperatures . . . . .	165
BARBARA H. DAINTON. The activity of slugs. II. The effect of light and air currents . . . . .	188

	PAGE
W. A. MANNELL AND R. J. ROSSITER. Wallerian degeneration in the rat. The effect of age on the concentration of nucleic acid and phospholipid in intact and sectioned nerves . . . . .	198
MARTYNAS YČAS. The respiratory and glycolytic enzymes of sea-urchin eggs . . . . .	208
D. A. PARRY. On the drinking of soil capillary water by spiders . . . . .	218
H. J. THOMAS. The oxygen uptake of the lobster ( <i>Homarus vulgaris</i> Edw.) . . . . .	228
LORD ROTHSCHILD AND A. TYLER. The physiology of sea-urchin spermatozoa. Action of versene . . . . .	252
G. HOYLE. Changes in the blood potassium concentration of the African migratory locust ( <i>Locusta migratoria migratorioides</i> R. and F.) during food deprivation, and the effect on neuromuscular activity . . . . .	260
PEGGY E. ELLIS AND G. HOYLE. A physiological interpretation of the marching of hoppers of the African migratory locust ( <i>Locusta migratoria migratorioides</i> R. and F.) . . . . .	271
V. J. WILSON. Slow and fast responses in cockroach leg muscle . . . . .	280
E. R. TRUEMAN. Observations on the mechanism of the opening of the valves of a burrowing lamellibranch, <i>Mya arenaria</i> . . . . .	291

## No. 3. SEPTEMBER 1954

THE LATE W. E. AGAR, F. H. DRUMMOND, O. W. TIEGS AND M. M. GUNSON. Fourth (final) report on a test of McDougall's Lamarckian experiment on the training of rats . . . . .	307
ELLEN THOMSEN. Studies on the transport of neurosecretory material in <i>Calliphora erythrocephala</i> by means of ligaturing experiments. (With Plates 7-9) . . . . .	322
T. O. BROWNING. Water balance in the tick <i>Ornithodoros moubata</i> Murray, with particular reference to the influence of carbon dioxide on the uptake and loss of water . . . . .	331
D. M. VOWLES. The orientation of ants. I. The substitution of stimuli . . . . .	341
D. M. VOWLES. The orientation of ants. II. Orientation to light, gravity and polarized light . . . . .	356
W. T. W. POTTS. The inorganic composition of the blood of <i>Mytilus edulis</i> and <i>Anodonta cygnea</i> . . . . .	376
JOHN E. TREHERNE. The exchange of labelled sodium in the larva of <i>Aedes aegypti</i> L. . . . .	386
WARREN J. GROSS. Osmotic responses in the sipunculid <i>Dendrostomum zostericum</i> . . . . .	402
JAMES D. ROBERTSON. The chemical composition of the blood of some aquatic chordates, including members of the Tunicata, Cyclostomata and Osteichthyes . . . . .	424

	PAGE
J. M. MITCHISON AND M. M. SWANN. The mechanical properties of the cell surface. I. The cell elastimeter. (With Plate 10). (With an Appendix by D. G. ASHWELL) . . . . .	443
J. M. MITCHISON AND M. M. SWANN. The mechanical properties of the cell surface. II. The unfertilized sea-urchin egg . . . . .	461

## No. 4. DECEMBER 1954

E. G. HEALEY. The colour change of the minnow ( <i>Phoxinus laevis</i> Ag.). II. Effects of spinal section between vertebrae 1 and 15 and of anterior autonomic section on the responses of the melanophores . . . . .	473
J. O. SPENCER AND E. B. EDNEY. The absorption of water by woodlice . . . . .	491
D. W. EWER AND ROELOF VAN DEN BERG. A note on the pharmacology of the dorsal musculature of <i>Peripatopsis</i> . . . . .	497
J. E. HARRIS AND H. P. WHITING. Structure and function in the locomotory system of the dogfish embryo. The myogenic stage of movement . . . . .	501
J. W. S. PRINGLE. A physiological analysis of cicada song. (With Plate 11) . . . . .	525
LORD ROTHSCHILD AND H. BARNES. Constituents of bull seminal plasma. . . . .	561
D. M. MAURICE AND A. FIDANZA. The structure of the yolk of the hen's egg, investigated by means of its permeability to $^{82}\text{Br}$ . . . . .	573
H. BARNES. Some tables for the ionic composition of sea water . . . . .	582
L. BAILEY. The respiratory currents in the tracheal system of the adult honey-bee . . . . .	589
G. A. HORRIDGE. The nerves and muscles of medusae. I. Conduction in the nervous system of <i>Aurelia aurita</i> Lamarck . . . . .	594
G. PARRY. Ionic regulation in the palaemonid prawn, <i>Palaemon</i> (= <i>Leander</i> ) <i>serratus</i> . . . . .	601
W. T. W. POTTS. The rate of urine production of <i>Anodonta cygnea</i> . . . . .	614
W. T. W. POTTS. The energetics of osmotic regulation in brackish- and freshwater animals . . . . .	618
A. O. M. STOPPANI, P. F. PIERONI AND A. J. MURRAY. The role of peripheral nervous system in colour changes of <i>Bufo arenarum</i> Hensel. (With Plates 12 and 13) . . . . .	631
Index of subjects . . . . .	639
Index of authors . . . . .	643

# INDEX OF SUBJECTS

## A

- Absorption of water:**  
by woodlice (SPENCER and EDNEY) 491
- Aedes aegypti L.:**  
The exchange of labelled sodium in the larva of (TREHERNE) 386
- Age:**  
*See* Rat
- Amines:**  
Enzymic oxidation of, in decapods (BLASCHKO and HIMMS) 1
- Anodonta cygnea:**  
The rate of urine production of (POTTS) 614  
— *See also* Blood
- Ants:**  
The orientation of. I. The substitution of stimuli (VOWLES) 341  
— II. Orientation to light, gravity and polarized light (VOWLES) 356
- Aurelia aurita Lamarck:**  
*See* Medusae

## B

- Blood:**  
The inorganic composition of the, of *Mytilus edulis* and *Anodonta cygnea* (POTTS) 376  
— The chemical composition of the, of some aquatic chordates, including members of the Tunicata, Cyclostomata and Osteichthyes (ROBERTSON) 424
- Blood potassium concentration:**  
*See* *Locusta migratoria migratorioides* R. and F.
- Bromine:**  
*See* egg
- Bufo arenarum Hensel:**  
The role of peripheral nervous system in colour changes of (STOPPANI, PIERONI and MURRAY) 631
- Bufo bufo bufo:**  
The influence of water and light and the pituitary upon the pigmentary system of the common toad (ROWLANDS) 151
- Bull:**  
*See* Seminal plasma

## C

- Calliphora erythrocephala:**  
Studies on the transport of neurosecretory material in, by means of ligaturing experiments (THOMSEN) 322
- Carbon dioxide:**  
*See* *Ornithodoros moubata* Murray
- Carcinas maenas:**  
An organ for proprioception and vibration sense in (BURKE) 127

## Cell surface:

- The mechanical properties of the. I. The cell elastimeter (MITCHISON and SWANN) 443  
— II. The unfertilized sea-urchin egg (MITCHISON and SWANN) 461

## Cicada song:

- A physiological analysis of (PRINGLE) 525

## Cockroach leg muscle:

- Slow and fast responses in (WILSON) 280

## Colour changes:

- of the minnow (*Phoxinus laevis* Ag.). II. Effects of spinal section between vertebrae 1 and 15 and of anterior autonomic section on the responses of the melanophores (HEALEY) 473  
— The role of peripheral nervous system in, of *Bufo arenarum* Hensel (STOPPANI, PIERONI and MURRAY) 631

*See also* *Bufo bufo bufo*

## Contractile vacuoles:

- The physiology of. IX. Effects of sudden changes in temperature on the contractile vacuole of a suctorian; with a discussion of the mechanism of contraction (KITCHING) 68  
— X. Effects of high hydrostatic pressure on the contractile vacuole of a suctorian (KITCHING) 76

## Contractation:

- Slow, and its relation to spontaneous activity in the sea-anemone *Metridium senile* (L.) (BATHAM and PANTIN) 84

## Cucumaria:

*See* Echinodermata

## Cyclostomata:

*See* Blood

## D

## Decapods:

- Enzymic oxidation of amines in (BLASCHKO and HIMMS) 1

## Dendrostomum zostericum:

- Osmotic responses in the sipunculid (GROSS) 402

## Dixippus morosus:

- Active transport of water by the Malpighian tubules of the stick insect (Orthoptera, Phasmidae) (RAMSAY) 104

## Dogfish embryo:

- Structure and function in the locomotory system of the dogfish embryo. The myogenic stage of movement (HARRIS and WHITING) 501

## E

**Echinodermata:**

Studies on the myoneural physiology of.  
I. The pharyngeal retractor muscle of  
*Cucumaria* (POPLE and EWER) 114

**Egg:**

Internal hydrostatic pressure of the *Fundulus*, I. The activated egg (KAO and CHAMBERS) 139

— The structure of the yolk of the hen's, investigated by means of its permeability to  $^{82}\text{Br}$  (MAURICE and FIDANZA) 573

**Elastimeter:**

*See* Cell surface

**Enzymes:**

Respiratory and glycolytic, of sea-urchin eggs (YČAS) 208

**Enzymic oxidation:**

*See* Decapods

## F

**Fundulus:**

*See* Egg

## G

**Glycolytic enzymes:**

*See* Enzymes

**Grafted skin:**

Studies on the nature of immunity to homologous, with special reference to the use of pure epidermal grafts (BILLINGHAM and SPARROW) 16

## H

**Hen:**

*See* Egg

**Homarus vulgaris Edw.:**

The oxygen uptake of the lobster (THOMAS) 228

**Honey-bee:**

The respiratory currents in the tracheal system of the adult (BAILEY) 589

**Hoppers:**

*See* *Locusta migratoria migratoria* R. and F.

**Hydrostatic pressure(s):**

The effects of high, on a suctorian (KITCHING) 56

— The physiology of contractile vacuoles. X. Effects of high, on the contractile vacuole of a suctorian (Kitching) 76

— Internal, of the *Fundulus* egg. I. The activated egg (KAO and CHAMBERS) 139

## I

**Ionic regulation:**

In the palaemonid prawn, *Palaemon* (= *Leander*) *serratus* (PARRY) 601

## L

**Lamellibranch:**

*See* *Mya arenaria*

**Larva:**

*See* *Aedes aegypti* L.

**Lobster:**

*See* *Homarus vulgaris* Edw.

**Locomotory system:**

Structure and function in the, of the dogfish embryo. The myogenic stage of movement (HARRIS and WHITING) 501

**Locusta migratoria migratoria** R. and F.:

Changes in the blood potassium concentration of the African migratory locust during food deprivation, and the effect on neuromuscular activity (HOYLE) 260

— A physiological interpretation of the marching of hoppers of the African migratory locust (ELLIS and HOYLE) 271

**Loss of water:**

*See* *Ornithodoros moubata* Murray

## M

**McDougall's Lamarchian experiment:**

Fourth (final) report on a test of, on the training of rats (AGAR, DRUMMOND, TIEGS and GUNSON) 307

**Malpighian tubules:**

Active transport of water by the, of the stick insect, *Dixippus morosus* (Orthoptera, Phasmidae) (RAMSAY) 104

**Medusae:**

The nerves and muscles of. I. Conduction in the nervous system of *Aurelia aurita* Lamarck (HORRIDGE) 594

**Metridium senile (L.):**

Slow contraction and its relation to spontaneous activity in the sea-anemone (BATHAM and PANTIN) 84

**Minnow:**

*See* *Phoxinus laevis* Ag.

**Mitotic index:**

and interphase processes (WALKER) 8

**Movement:**

*See* Dogfish embryo and Slugs

**Musculature:**

*See* *Peripatopsis* and Medusae

**Mya arenaria:**

Observations on the mechanism of the opening of the valves of a burrowing lamellibranch (TRUEMAN) 291

**Myoneural physiology:**

*See* Echinodermata

**Mytilus edulis:**

*See* Blood

## N

**Nerves:**

*See* Medusae and Rat

**Nervous system:**

*See* Medusae and *Bufo arenarum* Hensel

**Neuromuscular activity:**

*See* *Locusta migratoria migratoria* R. and F.

**Neurosecretory material:***See Calliphora erythrocephala***Nucleic acid:***See Rat***O****Omasum:***See Sheep***Orientation:***See Ants***Ornithodoros moubata Murray:**

Water balance in the tick, with particular reference to the influence of carbon dioxide on the uptake and loss of water (BROWNING)

331

**Osmotic regulation:**

The energetics of, in brackish- and freshwater animals (POTTS)

618

**Osmotic responses:***See Dendrostomum zostericum***Osteichthyes:***See Blood***Oxygen concentration:***See Rainbow trout***Oxygen uptake:***See Homarus vulgaris Edw.***P****Palaemon (=Leander) serratus:**

Ionic regulation in the palaemonid prawn (PARRY)

601

**Peripatopsis:**

A note on the pharmacology of the dorsal musculature of (EWER and BERG)

497

**Pharyngeal retractor muscle:***See Echinodermata***Phospholipid:***See Rat***Phoxinus laevis Ag.:**

The colour change of the minnow. II. Effects of spinal section between vertebrae 1 and 15 and of anterior autonomic section on the responses of the melanophores (HEALEY)

473

**Pigmentary system:**

The influence of water and light and the pituitary upon the, of the common toad (*Bufo bufo bufo*) (ROWLANDS)

151

*— See also Phoxinus laevis Ag.***Pituitary:***See Bufo bufo bufo***Potassium cyanide:***See Rainbow trout***Prawn:***See Palaemon (=Leander) serratus***Proprioception:**

An organ for, and vibration sense in *Carcinas maenas* (BURKE)

127

**R****Rainbow trout:**

The influence of dissolved oxygen concentration on the toxicity of potassium cyanide to (DOWNING)

161

**Rat:**

Wallerian degeneration in the. The effect of age on the concentration of nucleic acid and phospholipid in intact and sectioned nerves (MANNELL and ROSSITER)

198

*— See also Training of rats***Respiratory currents:***See Tracheal system***Respiratory enzymes:***See Enzymes***S****Sea-anemone:***See Metridium senile (L.)***Sea-urchin eggs:**

Respiratory and glycolytic enzymes of (YČAS)

208

*— See also Cell surface***Sea-urchin spermatozoa:**

The physiology of. Action of versene (ROTHSCHILD and TYLER)

252

**Sea water:**

Some tables for the ionic composition of (BARNES)

582

**Seminal plasma:**

Constituents of bull (ROTHSCHILD and BARNES)

561

**Sheep:**

The passage of starch through the stomach of the (WELLER and GRAY)

40

*— Functions of the omasum in the stomach of the (GRAY, PILGRIM and WELLER)*

49

**Sipunculus:***See Dendrostomum zostericum***Slugs:**

The activity of. I. The induction of activity by changing temperatures (DAINTON)

165

*— II. The effect of light and air currents (DAINTON)*

188

**Sodium:***See Aedes aegypti L.***Soil capillary water:***See Spiders***Spiders:**

On the drinking of soil capillary water by (PARRY)

218

**Starch:***See Sheep***Stick insect:***See Dixippus morosus***Stomach:**

The passage of starch through the, of the sheep (WELLER and GRAY)

40

*— Functions of the omasum in the, of the sheep (GRAY, PILGRIM and WELLER)*

49

**Suctorian:**

- The effects of high hydrostatic pressures on a (KITCHING) 56  
 — The physiology of contractile vacuoles. IX.  
     Effects of sudden changes in temperature on the contractile vacuole of a; with a discussion of the mechanism of contraction (KITCHING) 68  
 — — X. Effects of high hydrostatic pressure on the contractile vacuole of a (KITCHING) 76

**T****Tick:**

*See Ornithodoros moubata* Murray

**Toad:**

*See Bufo bufo bufo*

**Tracheal system:**

Respiratory currents in the, of the adult honey-bee (BAILEY) 589

**Training of rats:**

Fourth (final) report on a test of McDougall's Lamarckian experiment on (AGAR, DRUMMOND, TIEGS and GUNSON) 307

**Tunicata:**

*See Blood*

**U****Uptake of water:**

*See Ornithodoros moubata* Murray

**Urine production:**

The rate of, of *Anodonta cygnea* (POTTS) 614

**V****Valves:**

Observations on the mechanism of the opening of the, of a burrowing lamellibranch, *Mya arenaria* (TRUEMAN) 291

**Versene:**

*See Sea-urchin spermatozoa*

**Vibration sense:**

*See Carcinus maenas*

**W****Wallerian degeneration:**

in the rat. The effect of age on the concentration of nucleic acid and phospholipid in intact and sectioned nerves (MANNELL and ROSSITER) 198

**Water balance:**

in the tick *Ornithodoros moubata* Murray, with particular reference to the influence of carbon dioxide on the uptake and loss of water (BROWNING) 331

**Woodlice:**

The absorption of water by (SPENCER and EDNEY) 491

**Y****Yolk:**

*See Egg*

## INDEX OF AUTHORS

### A

- Agar, the late W. E., Drummond, F. H., Tiegs, O. W. and Gunson, M. M.** Fourth (final) report on a text of McDougall's Lamarckian experiment on the training of rats 307
